Subject: More markups and restructure of phasing FW: Draft Navy fact sheet - EPA comments

Attached is an updated markup that goes into more depth to implement the changes recommended in comments made earlier. Also, I attached a clean copy version that also restructures the phasing portrayal in a way that implements the recommendations made in comment bubbles in the markup track changes version. Please contact me or Jackie Lane (415-947-4187) any time about any of these comments.

Subject: Draft Navy fact sheet - EPA comments

Thank you for providing the draft fact sheet about Tetra Tech for EPA review. Attached are the following:

- 1 – EPA comments
- 2 – Track changes markup of the Word document with some suggestions on language that relate to some of our comments.
- 3 – Two EPA fact sheets that list some facts related to potential exposure to community residents and workers.

If time permits this weekend, I may work on more suggested edits to the Word document that would address more of EPA's comments in the first attachment before Monday, January 9, 9 am. Please contact me at any time to discuss any of these comments.

Thanks!

Lily
